Homeschool Information Sheet

What does the NCAA consider “homeschooling”?

Generally, if a parent/guardian or tutor creates the curriculum, provides instruction, assesses the coursework or awards grades and credit, the student is considered to be homeschooled.

Learning at home is not necessarily the same as being homeschooled. Because of ongoing growth in online and virtual education, a student may be able to learn at home through an online school with online teachers, which would not be considered a parent/guardian-directed tutor. To determine whether a college-bound student-athlete would be considered homeschooled, review the following questions.

ELIGIBILITY CENTER HOMESCHOOL PARAMETERS		
Instructional Scenarios	Schooling at Home	Homeschooling
An outside school or program created or developed the curriculum for the courses.	✓	
An outside school or program designed or created the assignments and assessments.	✓	
An outside school or program determines what score or grade is achieved in the course(s).	✓	
An outside school or program provides the instruction in the courses.	✓	
An outside school or program evaluates or grades the assignments and assessments.	✓	
An outside school or program is responsible for producing a student transcript or grade report.	✓	
A homeschool parent/guardian, tutor or umbrella program created or developed the curriculum for the courses.		✓
A homeschool parent/guardian, tutor or umbrella program designed or created the assignments and assessments.		✓
A homeschool parent/guardian, tutor or umbrella program determines what score or grade is achieved in the course(s).		✓
A homeschool parent/guardian, tutor or umbrella program provides the instruction in the courses.		✓
A homeschool parent/guardian, tutor or umbrella program evaluates or grades the assignments and assessments.		✓
A homeschool parent/guardian, tutor or umbrella program is responsible for producing a student transcript or grade report.		✓

Note: If your answer to one or more of the statements above is “homeschool parent/guardian, tutor or umbrella program,” the student would likely be considered a homeschooled student. Nonhomeschooled students are encouraged to review the [Guide for the College-Bound Student-Athlete](#).

Homeschool Course Evaluation

The only courses that require a homeschool evaluation are those in which the homeschool parent/guardian, tutor or umbrella program is the one is responsible for all the following:

- » Planning and delivering actual instructional activities, such as lectures, discussions, tutorials, feedback or assistance.
- » Determining the student’s comprehension of the material by grading and evaluating student performance and achievement on assignments and assessments, and providing appropriate reteaching and feedback.
- » Determining the overall grade the student achieved in the course.
- » Placing grades on a transcript or grade report, or reporting grades to a homeschool umbrella program.

The following homeschool documentation is required for courses to be considered in an academic certification:

- » [Homeschool Transcript Example](#).
- » [Administrator and Accordance Statement information](#).
- » [Core-Course Worksheet for each core course completed](#).

Reminder: The Eligibility Center will evaluate homeschool coursework only after all the above required documents have been received and the student has been placed on an NCAA school's institutional request list (IRL). An NCAA school's compliance office is not required to add the student to their IRL, but may do so if a coach at that NCAA school is recruiting a student. Please check with the compliance office at the NCAA school the student may attend for more information about this process.

Coursework Completed Outside of Homeschool

For outside coursework completed in addition to the homeschool program, the student should:

- » Include the high school/program in the Education Profile section of their Eligibility Center account.
- » Check the status of the high school/program to ensure it is "Cleared" and has an NCAA-approved core-course list. (Be sure to review the Additional Information section.)
- » Have an official transcript or grade report submitted directly to the Eligibility Center.
- » If coursework completed outside of homeschool is included on a homeschool transcript, it should be designated as completed elsewhere. This designation should indicate where the coursework was completed, listing the name of the high school or program.

To learn more about core-course requirements, [click here](#).

Dual-Enrollment Coursework

Dual-enrollment coursework may be used to satisfy NCAA core-course requirements if:

- » The course appears on the homeschool transcript with grade and high school credit and meets all requirements for an NCAA-approved core course.
 - Dual-enrollment coursework must also be clearly designated on the student's homeschool transcript as a college course, with the transcript indicating where the course was completed and lists the name and location (city and state) of the two- or four-year school attended.

For dual-enrollment coursework completed at a two- or four-year college, a Core-Course Worksheet is not required, but an official college transcript must be provided. The Administrator and Accordance Statement is required even if the homeschool coursework is exclusively dual enrollment completed through a college/university.

Registered as a Homeschooled Student in Error

If a student erroneously registers with the Eligibility Center as a homeschooled student, the homeschool designation and related tasks cannot be removed from a student's account until all transcripts from each high school attended, through the first six semesters are received by the Eligibility Center.

Once this information has been received, the student may contact the Eligibility Center to request their transcripts be reviewed by homeschool review staff to evaluate if the homeschool designation is appropriate. If it is determined that the student was not homeschooled, the homeschool designation will be removed and the related open tasks deleted. Note: This review may take up to five business days.

Upon review of the transcript(s), if evidence of homeschooling exists, the student will be required to provide the appropriate homeschool documentation for review:

- » [Homeschool Transcript Example](#).
- » [Administrator and Accordance Statement](#).
- » [Core-Course Worksheet for each core course completed](#).

Submitting Student Records

Document Submission

Student records should be submitted once the student completes their first six semesters of coursework. Generally, this is the time NCAA schools request an account be evaluated. Student records may also be submitted when coursework is completed at the end of each academic year. At this time, an updated homeschool transcript and Core-Course Worksheets should be submitted. (The Administrator and Accordance Statement should be submitted only once.)

Email

Documents submitted via email will be accepted only if sent from an email listed on the Administrator and Accordance Statement. Email is the preferred method of document submission. All homeschool documentation should be emailed to ec-processing@ncaa.org. Keep in mind, this email is intended for document submission only. Embedded links cannot be accepted. Please direct any case-specific or process-related questions to the Eligibility Center's customer service team at 877-262-1492, Monday-Friday from 9 a.m. to 5 p.m. Eastern time.

Standard Mail

If sending via standard U.S. mail, please use one of the following addresses:

Certification Processing

NCAA Eligibility Center
P.O. Box 7110
Indianapolis, IN 46207-7110

Overnight Delivery

NCAA Eligibility Center
Homeschool Evaluation
1802 Alonzo Watford Sr. Drive
Indianapolis, IN 46202

ADDITIONAL INFORMATION

Be sure to include the student's NCAA ID with all submitted student records, regardless of the method of submission.

Homeschool Transcript Information

Transcript Submission

Transcripts may be created by the home school administrator or homeschool umbrella program and submitted to ec-processing@ncaa.org only from the e-mail address(es) listed on the Home School Administrator and Accordance Statement.

Transcript Information Requirements

To be considered sufficient/official, homeschool transcripts must include the following:

- » Homeschool administrator's signature.
- » Student's full name and complete home address.
- » Student's ninth grade start date (mm/dd/yyyy).
Note: This date should reflect when the student started ninth grade regardless of where the student was attending ninth grade and/or if the student completed any pre-ninth grade coursework.
- » Course titles.
- » Grades achieved.
- » Units of credit for each course, using increments of .25, .50, .75, 1.0 or .34 or .67.
Note: No course shall receive more than 1.0 unit of credit.
- » Grading scale. (If numeric grading is used, alpha/letter equivalent needed.)
Note: See examples below.
- » Academic year in which the course was taken (e.g., "11th grade," "junior year 2024-25").
- » Graduation date (mm/dd/yyyy).

ADDITIONAL INFORMATION

If ANY of the above information is missing, the transcript may NOT BE USED.

Grading Scale Examples

The following examples indicate the information required on a grading scale, as well as two variations of how the grading scales may be presented. **Note:** If courses are awarded pass/fail, the "pass" grades will be awarded a letter grade of D.

Example A

- » A = numerical value (e.g., A = 100-90)
- » B = numerical value (e.g., B = 89-80)
- » C = numerical value (e.g., C = 79-70)
- » D = numerical value (e.g., D = 69-60)
- » F = numerical value (e.g., F = 59-0)

Example B

Letter	Value Range	
A	100	90
B	89	80
C	79	70
D	69	60
F	59	0

Academic Summary

Cumulative GPA: 3.666

Credits Earned: 30

Diploma Earned: Honors

Expected Graduation Date: mm/dd/yyyy

Notes

*Course completed at XYZ Virtual School.

**Dual enrollment coursework at Marathon College (Indianapolis, IN).

Note: separate college transcript must be submitted

Grading Scale

» A = 100-90

» B = 89-80

» C = 79-70

» D = 69-60

» F = 59-0

Homeschool Administrator: Homeschool Administrator

Date: mm/dd/yyyy

REMEMBER

The highlighted items are required.

Transcripts without these items may not be used.

Proof of Graduation

Any of the following may be accepted as proof of graduation:

- » Diploma showing month, day and year of graduation.
- » Homeschool transcript showing month, day and year of graduation.
- » State-recognized equivalency exam test results and diploma.

Exceptions

Florida Virtual Flex (101541)

A student cannot graduate from Florida Virtual Flex (high school CEEB 101541), as high school diplomas are not awarded. If graduating from Florida Virtual Flex as a homeschooled student, the Administrator and Accordance Statement and Homeschool Completion Affidavit are required.

- » The Homeschool Completion Affidavit must be signed by a parent/guardian and include the actual date on which the student met graduation requirements (mm/dd/yyyy).
- » As the affidavit does not include a section for the actual date of graduation, it must be added by the parent/guardian.
Remember: Homeschool documentation is not required for Florida Virtual except in instances in which the student intends to graduate as a homeschooled student. In this case, the Homeschool Completion Affidavit is required.
- » For a Homeschool Completion Affidavit to be viable proof of graduation from Florida Virtual, the student must be a resident of Florida. If not a Florida resident, a self-created homeschool transcript with proof of graduation may be submitted for consideration. A separate official Florida Virtual transcript would also be required.
- » For students who start ninth grade at Florida Virtual Flex, the parent/guardian must submit the official transcript and the Administrator and Accordance Statement to confirm the date on which the student started ninth grade.

Florida Virtual Full-Time (102414)

If a student attends and graduates from Florida Virtual Full-Time (high school CEEB 102414), a diploma will be awarded.

Hawaii and New York

The Eligibility Center cannot accept proof of graduation from a diploma issued by a homeschool in Hawaii or New York because they do not recognize homeschool diplomas. If a student is homeschooled in one of these states and does not graduate from a high school, the local school district or state board of education must review the student's homeschool record and provide a written letter indicating the student has met the state's graduation requirements or the equivalent. The letter must clearly state the month, day and year the student met graduation requirements.

To satisfy proof of graduation requirements and meet the Eligibility Center's graduation requirements, the student may also provide the test results and diploma/certificate earned from passing the state-recognized equivalency exam.

High School Equivalency Exam

A state high school equivalency exam (e.g., [General Education Diploma](#)) may be accepted as proof of graduation for homeschooled students under certain conditions, but it will not satisfy requirements for core courses or GPA. The equivalency exam may be accepted as proof of graduation if taken after the graduation date of the student's class but before full-time enrollment into any college or university. An official copy of the applicable certificate, along with test scores, will be required.

Note: A state high school equivalency exam cannot be used to satisfy proof of graduation requirements for the Eligibility Center if it was taken before the date the student would normally have graduated with their class. On-time graduation is typically based on the local school's academic calendar.

Administrator and Accordance Statement Information

The Administrator and Accordance Statement is required for the homeschool review. The statement must be completed/ signed by the parent/guardian and the homeschool administrator (who may also be the parent/guardian). The homeschool administrator is the individual who may do one or more of the following:

- » Manages the homeschool program.
- » Teaches and evaluates the coursework.
- » Awards grades and issues credit.

Supporting Documentation

Supporting documents may be requested upon receipt of the Administrator and Accordance Statement. Examples of requested supporting documentation may include but are not limited to:

- » An intent to homeschool form, a homeschool enrollment form or any other registration document required by your state.
- » A signed letter from the student's local school district indicating the student is homeschooled.
- » A signed letter from your state's board of education indicating the student is homeschooled.

ADDITIONAL INFORMATION

The Administrator and Accordance Statement requires a signature from parent/guardian. Documents submitted via email will only be accepted if sent from the email listed on the Administrator and Accordance Statement.

Core-Course Worksheet Information

What is a Core Course?

A core course meets high school graduation requirements in one or more of the following subject areas: English, math (Algebra 1 or higher), science, social science, world language, comparative religion or philosophy.

- » Audited, CLEP or credit-by-exam courses are not NCAA-approved core courses and cannot be used as part of an academic certification.
- » For more information on the criteria for sufficient approval of core courses, see the [High School Review Committee's Policies and Procedures](#).

Core-Course Worksheet

A Core-Course Worksheet must be completed for each course taught through a homeschool that the homeschool administrator wishes to have reviewed for approval as a core course.

- » Each Core-Course Worksheet requires a signature from the parent/guardian.
- » Only the current version of the Eligibility Center-provided Core-Course Worksheet will be accepted.
 - Any original or self-created worksheets will not be accepted.

Preapproved Homeschool Coursework

There is no preapproved homeschool curriculum. For coursework to be considered, the requested homeschool documentation must be reviewed to determine if the coursework meets both NCAA core-course legislation and the core-course criteria for review.

Pre-Ninth Grade Coursework

High school courses taken before ninth grade may be used to satisfy NCAA core-course requirements if the courses appear on the official transcript with grade and high school credit and meet all other requirements for core courses. A Core-Course Worksheet is required for pre-ninth grade courses completed via homeschool.

Dual-Enrollment Coursework

Dual-enrollment coursework may be used to satisfy NCAA core-course requirements if:

- » The course appears on the homeschool transcript with grade and high school credit and meets all requirements for an NCAA-approved core course.
- » Dual-enrollment coursework must also be clearly designated on the student's homeschool transcript as a college course, with the transcript indicating where the course was completed and lists the name and location (city and state) of the two- or four-year school attended.

For dual-enrollment coursework completed at a two- or four-year college, a Core-Course Worksheet is not required, but an official college transcript must be provided. The Administrator and Accordance Statement is required even if the homeschool coursework is exclusively dual enrollment completed through a college/university.

Core-Course Worksheet

Instructions

The following provides helpful instructions for completing the Core-Course Worksheet.

- » Each Core-Course Worksheet must be completed/signed by the parent/guardian on file.
 - Unsigned Core-Course Worksheets will be marked as unofficial and will not be reviewed.
- » Documents should be sent as attachments via email and cannot be accepted via Adobe EchoSign or Dropbox.
- » Only the Eligibility Center-provided Core-Course Worksheet will be accepted.
 - Any original or self-created worksheets will be considered unofficial.
- » Core-Course Worksheets should not be submitted for coursework in progress.

Form Field	What Should Be Entered
NCAA ID	Ten-digit identification number located in the top-right corner of your student's Eligibility Center account.
Course Name	Name of the course should be the same as the title on the transcript.
Grade/Year Taken (e.g., 2024-25, 2025-26, etc.)	Should reflect the grade and year in which the student took the course (e.g., grade 9, 10, 11, 12).
Subject Area for Graduation Credit	Subject area in which the course receives credit for graduation. For courses not within the core-course categories (see Core-Course Worksheet Instructions), a Core-Course Worksheet is not required, as these courses are not evaluated as part of the student-athlete's certification.
Attestation Questions	Provide a response to each question to verify the course meets NCAA requirements.
Teacher of Record	Individual who plans and delivers actual instructional activities (lectures, discussions, tutorials, feedback, assistance, etc.). This individual also assesses student comprehension and assigns grades or reports student content mastery. Note: The parent/guardian should be listed as either the teacher of record or other teacher.
Other Teacher	If the duties and responsibilities of the teacher of record are shared with another individual, list that individual's name here. Note: The parent/guardian should be listed as either the teacher of record or other teacher.
Grade Based On	Provide a brief explanation regarding how the student's grade was calculated. Example: Tests/quizzes 30%; written work 50%; class participation 20%. This is NOT a request for a grading scale.
Prerequisite(s)	List any courses that must be successfully completed before taking this course. Example: Algebra 1 is a prerequisite for Algebra 2.
Text(s) Used	List the instructional materials used or a summary of materials used.
Curriculum Provider/Designer	If the course was taken through an outside program or school, or if the homeschool instructor used a predesigned or packaged curriculum, list that information in this field.
Course Description	Brief paragraph that outlines the general goals and content of the course. See examples below.
Course Content/Goals/Outline	This section can be a bulleted list of the key content standards or topics to be studied in the course. See examples below.
Types of Assessment Used	List the different types of formative and summative assessments used throughout the course (e.g., tests, quizzes, writing assignments, verbal assessment, projects, presentations, etc.).
Assessments Designed/Developed By	Content for this field will largely depend on what curriculum/provider is being used. If the student is taking a course through an online school or program, that school or program has likely designed and developed the assessments. If the parent/guardian or tutor has developed the course, that individual(s) has probably developed the assignments and assessments. It may be a combination of both, depending on how the course has been designed and taught.
Assessments Graded By	List the person(s) responsible for grading the assignments and assessments.
Grade Achieved	List the grade the student achieved. The grade listed on the worksheet should match the grade awarded on the transcript.
Credit Awarded	List the credit the student was awarded. The credit listed on the worksheet should match the credit awarded on the transcript.

Sample Course Descriptions

Precalculus with Trigonometry

Following Geometry and Algebra 2, this full-year course provides traditional math instruction with frequent practice. Includes options for students to communicate and explore content in ways that illuminate the transitions between concrete and abstract thinking.

English 1

This course will emphasize literature and serves as an introduction to high school-level composition skills. In the first semester, the student will read and discuss a novel and work on five-paragraph essays. In the second semester, the student will read and discuss a variety of short stories. Discussions will include analysis of the focus, setting, characters, plot and theme. Student will write their own short story.

World Geography

This course studies the land, people and cultures of the world with an emphasis on how features, such as cultural and economic factors, affect the character of each nation in our global community.

Biology

This course will provide a thorough understanding of the fundamental principles of scientific investigation, life at the molecular and cellular level, life at the systems and organism level, and the interaction of life forms.

Sample Course Content/Goals/Outline

The following examples illustrate the different ways you can provide information regarding the actual content or key outcomes covered in the course.

Example Type: Narrative

Biology

Content includes the following topics: nature of matter; carbon compounds; chemical reactions and enzymes; photosynthesis; cellular respiration; cell growth and division; genetics; human genome; evolution of populations; bacteria and viruses; classifications; protozoa; worms; arthropods; chordates; amphibians; reptiles; mammals; digestive and excretory systems; circulatory and respiratory systems; endocrine and reproductive system; skeletal, muscular and immune systems.

Example Type: Chart

Precalculus with Trigonometry

Actual Content	Key Outcomes
Functions and mathematical models.	Regression for nonlinear data.
Periodic functions and right triangle problems.	Residual plots and mathematical models.
Applications of trigonometric functions.	Matrix operations and solutions of linear systems.
Applications of circular functions.	Rotation and dilation of matrices.
Trigonometric function properties, identities.	Probability.
Parametric functions.	Functions of a random variable.
Properties of combined sinusoids.	Analytic geometry of conic sections and quadric surfaces.
Triangle trigonometry.	Polar equations of conics.
Deviations, residuals, correlation coefficient.	Sequences and series.

Example Type: Outline

English 1

1. Novel study: "Animal Farm," to include history and background of the author.
 - » Specific study of author's purpose, characterization, symbolism/allegory and theme.
 - » Class discussions and journal writing.
2. Writing process: pre-writing, drafting, revising, editing and finalizing.
 - » Specific writing assignments include compare/contrast, persuasive, descriptive and analytical.
 - » One research paper of three to five pages.
3. Short story authors include: Twain, O. Henry, Dickens, Poe, Bradbury, Vonnegut, Angelou.
 - » Discussion and analysis of plot, character, setting, theme.
 - » Journal analysis of short-story elements.
 - » Student to write original short story.

Example Type: Outline

World Geography

1. North America.
2. Europe.
3. Africa.
4. Asia.
5. Each to include: borders, terrain, water, climate, vegetation, wildlife, famous sites/events, ethnicities, languages, religions, transportation, government, economics and industry.

Homeschool Umbrella Program

What is a “Homeschool Umbrella Program”?

A homeschool umbrella program is any program recognized by the state as a homeschool program or homeschool support program. The three types of programs are:

1. Programs offering transcript service, state high school diploma, record keeping and review of course materials.
2. Programs that can offer transcript service, state high school diploma, record keeping and curriculum. These programs do not offer a review of course materials.
3. Programs that offer only a transcript and a diploma.

Homeschool Umbrella Program Questions

1. Does the umbrella program administrator or the parent/guardian sign the transcript?

The transcript can be signed by an umbrella program administrator unless the program is a homeschool co-op. In that case, it will be signed by the parent/guardian.

2. Does the umbrella program administrator or the parent/guardian complete the homeschool administrator statement?

The parent/guardian is always responsible for completing, signing and submitting the homeschool administrator statement.

3. Is the homeschool Administrator and Accordance Statement needed if a college-bound student-athlete goes through an umbrella program?

Yes, the homeschool administrator statement is required for all homeschooled students.

4. Is the parent/guardian or the umbrella program required to complete the Core-Course Worksheets?

In all instances, the parent/guardian must be listed as either the teacher of record or other teacher. The worksheets must be signed by the parent/guardian.

Umbrella Program Transcripts

Email is the preferred method of document submission. All homeschool documentation should be emailed to ec-processing@ncaa.org. For more information on submitting transcripts, see [submitting student records](#).

Note: Documents submitted via email will only be accepted if sent from the email listed on the Administrator and Accordance Statement.

Homeschool Checklist

Required Documentation

Each of the items listed below (A, B, C, and D) must be on file with the Eligibility Center in order for homeschool coursework to be considered.

- ☐ **Item A: Homeschool Transcript.** The submitted homeschool transcript must include all transcript information requirements.
- ☐ **Item B: Administrator and Accordance Statement.** The Administrator and Accordance Statement is a signed statement indicating who managed the homeschool program (e.g., who taught and evaluated the coursework, awarded grades and issued credit) and that homeschooling was conducted in accordance with state laws.
- ☐ **Item C: Core-Course Worksheet.** Submit a Core-Course Worksheet for each core course completed throughout homeschooling in the areas of English, math, science, social science, world language, comparative religion or philosophy. For more information, see [Core-Course Worksheet Information](#).
- ☐ **Item D: Proof of High School Graduation.** Proof of high school graduation must include the specific graduation date (mm/dd/yyyy). For more information, see [Accepted Proof of Graduation and Exceptions](#).

How to Submit Student Records

For more information on how to submit required and official documentation, see [submitting student records](#).

Review Process

The Eligibility Center will evaluate homeschool coursework only after all required documents have been received and after the student has been placed on an NCAA school's institutional request list.

- » After the information listed above is received, the Eligibility Center may need to request additional information or clarification before completing an academic certification. Please note that homeschool-specific tasks will not be marked complete at the time of receipt, but instead are closed after the documents are reviewed. This review may take up to 10 business days.
- ☐ **Item E: Additional Information That May Be Needed.** Transcripts from any other high school or college attended (official copy directly from issuing institution).

Additional Questions

If you need assistance, review our Frequently Asked Questions or contact the Eligibility Center's customer service team at 877-262-1492 Monday-Friday from 9 a.m. to 5 p.m. Eastern time.

Frequently Asked Questions

1. How can homeschool documentation be submitted?

Email documents to ec-processing@ncaa.org or send them through the U.S. mail or overnight.

- » Documents submitted via email will only be accepted if sent from the email listed on the Administrator and Accordance Statement. For more information on how to submit required and official documentation, see [submitting student records](#). Academic records that are not submitted in accordance with this policy will result in those records being marked unofficial, and a task will be assigned to the student's account.

2. If the college-bound student-athlete is enrolled with a homeschool umbrella program, do I still have to complete all the homeschool tasks?

Yes, you must complete all tasks. (Homeschool umbrella programs can submit transcripts.)

3. Can multiple documents be submitted in the same email attachment/envelope?

Yes, documents can be submitted together; the mail staff will separate the transcript, and the other documents will remain as one document entry. The documents will be imaged to the student's account, and the appropriate tasks will be marked as complete.

4. Can a homeschooled college-bound student-athlete receive a fee waiver?

Yes. Homeschooled college-bound student-athletes are eligible for an Eligibility Center fee waiver if they meet any of the fee waiver criteria.

- » If a student meets any of the fee waiver criteria and has not attended a U.S. high school (e.g., international students, homeschooled students), a task will be assigned to their Eligibility Center account with instructions for completing the fee waiver requirement.

5. Is there a list of approved homeschool programs?

No, homeschool programs are not preapproved. Use of courses depends on what information is detailed on the homeschool documents submitted to the Eligibility Center.

6. Can documents be signed electronically?

Yes. The homeschool administrator/parent/guardian may sign documents electronically or by hand with a pen.

7. Do I need to register as homeschooled if my schooling is international?

If the program is approved through your ministry of education and the coursework (or exams) appear on a standard ministry transcript, exam board transcript, certificate, etc., then you would not be considered homeschooled for Eligibility Center purposes.

8. Can a homeschooled college-bound student-athlete in a military family relocate?

Relocations, including overseas assignments, in themselves, should not prevent a homeschooled student from meeting NCAA initial-eligibility requirements so long as adequate planning toward meeting the NCAA's academic requirements are in place.

9. Which documents should be submitted first?

As a best practice, the Home School Administrator and Accordance Statement should be submitted first, followed by the home school transcript and then the core course worksheets.
